

On July 11, 2013, we installed eight **HeatSaver® Thermal Shades** in the [Chicago Center for Green Technology](#). They're in the Training Center, second floor, southwest corner.

On August 27, 2013, at 3:30 in the afternoon Peter recorded the temperatures listed below. The outside air temperature was 94°F and the shades were fully deployed when he arrived.

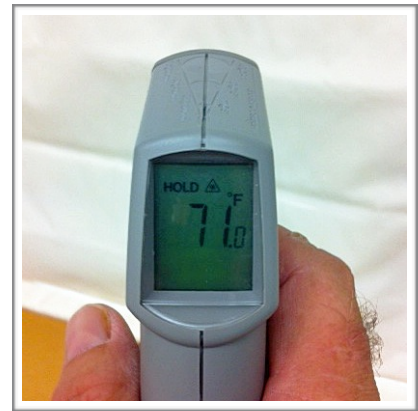

A [Raytek® MiniTemp™](#) infrared thermometer was used.

South facing window in the sun.

Interior, between a shade and a window.

The face of a lowered shade.

The Chicago Center for Green Technology [445 North Sacramento Blvd.](#) **312.746.9642**

[HeatSaver® Thermal Shades.](#) Serious Energy Conservation.
